Author and photographer Susan Kuklin met and interviewed six transgender or gender-neutral young adults and used her considerable skills to represent them thoughtfully and respectfully before, during, and after their personal acknowledgment of gender preference. Portraits, family photographs, and candid images grace the pages, augmenting the emotional and physical journey each youth has taken. Each honest discussion and disclosure, whether joyful or heartbreaking, is completely different from the other because of family dynamics, living situations, gender, and the transition these teens make in recognition of their true selves.

"Shy and softhearted Charlie Spring sits next to rugby player Nick Nelson in class one morning. A warm and intimate friendship follows, and that soon develops into something more for Charlie, who doesn't think he has a chance. But Nick is struggling with feelings of his own, and as the two grow closer and take on the ups and downs of high school, they come to understand the surprising and delightful ways in which love works."-- Publisher's description.

*Before.* Miles "Pudge" Halter's whole life has been one big non-event. Then he heads off to the sometimes crazy, possibly unstable, and anything-but-boring world of Culver Creek Boarding School, and his life becomes the opposite of safe. Because down the hall is Alaska Young. The gorgeous, clever, funny, sexy, self-destructive, screwed-up, and utterly fascinating Alaska Young pulls Pudge into her world, launches him into a new life, and steals his heart. *After.* Nothing is ever the same. *Before.* Miles "Pudge" Halter's whole life has been one big non-event. Then he heads off to the sometimes crazy, possibly unstable, and anything-but-boring world of Culver Creek Boarding School, and his life becomes the opposite of safe. Because down the hall is Alaska Young. The gorgeous, clever, funny, sexy, self-destructive, screwed-up, and utterly fascinating Alaska Young pulls Pudge into her world, launches him into a new life, and steals his heart. *After.* Nothing is ever the same. The Printz Award-winning modern classic is now available in the successful Premium Edition format with a bonus reading guide and a letter from John Green.

At first, Jude and her twin brother Noah, are inseparable. Noah draws constantly and is falling in love with the charismatic boy next door, while daredevil Jude wears red-red lipstick, cliff-dives, and does all the talking for both of them. Years later, they are barely speaking. Something has happened to change the twins in different yet equally devastating ways . . . but then Jude meets an intriguing, irresistible boy and a mysterious new mentor. The early years are Noahs to tell; the later years are Judes. But they each have only half the story, and if they can only find their way back to one another, they'll have a chance to remake their world.

Jeannette Walls's father always called her "Mountain Goat" and there's perhaps no more apt nickname for a girl who navigated a sheer and towering cliff of childhood both daily and stoically. In *The Glass Castle*, Walls chronicles her upbringing at the hands of eccentric, nomadic parents--Rose Mary, her frustrated-artist mother, and Rex, her brilliant, alcoholic father. To call the elder Walls's childrearing style laissez faire would be putting it mildly. Jeannette Walls grew up with parents whose ideals and stubborn nonconformity were both their curse and their salvation. Rex and Rose Mary Walls had four children. In the beginning, they lived like nomads, moving among Southwest desert towns, camping in the mountains. Rex was a charismatic, brilliant man who, when sober, captured his children's imagination, teaching them physics, geology, and above all, how to embrace life fearlessly. Rose Mary, who painted and wrote and couldn't stand the responsibility of providing for her family, called herself an "excitement addict." Cooking a meal that would be consumed in fifteen minutes had no appeal when she could

Some cops and the local drug lord try to intimidate Starr and her family. What everyone wants to know is: what really went down that night? And the only

"A quick, easy and important educational comic guide to using gender-neutral pronouns."--Amazon.  
 "Archie, a snarky genderqueer artist, is tired of people not understanding gender-neutral pronouns. Tristan, a cisgender dude, is looking for an easy way to introduce gender-neutral pronouns to his increasingly diverse workplace. The longtime best friends team up in this short and fun comic guide that explains what pronouns are, why they matter, and how to use them. They also include what to do if you make a mistake, and some tips-and-tricks for those who identify outside of the binary to keep themselves safe in this binary-centric world." --

BE WHO YOU ARE. When people look at George, they think they see a boy. But she knows she's not a boy. She knows she's a girl. George thinks she'll have to keep this a secret forever. Then her teacher announces that their class play is going to be Charlotte's Web. George really, really, REALLY wants to play Charlotte. But the teacher says she can't even try out for the part... because she's a boy. With the help of her best friend, Kelly, George comes up with a plan. Not just so she can be Charlotte but so everyone can know who she is, once and for all.

"When people look at George, they think they see a boy. But she knows she's not a boy. She knows she's a girl. George thinks she'll have to keep this a secret forever. Then her teacher announces that their class play is going to be Charlotte's Web. George really, really, REALLY wants to play Charlotte. But the teacher says she can't even try out for the part ... because she's a boy. With the help of her best friend, Kelly, George comes up with a plan. Not just so she can be Charlotte -- but so everyone can know who she is, once and for all."-- Provided by publisher.

Rick's never questioned much. He's gone along with his best friend Jeff even when Jeff's acted like a bully and a jerk. He's let his father joke with him about which hot girls he might want to date even though that kind of talk always makes him uncomfortable. And he hasn't given his own identity much thought, because everyone else around him seemed to have figured it out. But now Rick's gotten to middle school, and new doors are opening. One of them leads to the school's Rainbow Spectrum club, where kids of many genders and identities congregate, including Melissa, the girl who sits in front of Rick in class and seems to have her life together. Rick wants his own...

Eleven-year-old Rick Ramsey has generally gone along with everybody, just not making waves, even though he is increasingly uncomfortable with his father's jokes about girls, and his best friend's explicit talk about sex; but now in middle school he discovers the Rainbow Spectrum club, where kids of many genders and identities can express themselves--and maybe among them he can find new friends and discover his own identity, which may just be to opt out of sex altogether.

Rick's never questioned much. He's gone along with his best friend Jeff even when Jeff's acted like a bully and a jerk. He's let his father joke with him about which hot girls he might want to date even though that kind of talk always makes him uncomfortable. And he hasn't given his own identity much thought, because everyone else around him seemed to have figured it out. But now Rick's gotten to middle school, and new doors are opening. One of them leads to the school's Rainbow Spectrum club, where kids of many genders and identities congregate, including Melissa, the girl who sits in front of Rick in class and seems to have her life together. Rick wants his own...

Eleven-year-old Rick Ramsey has generally gone along with everybody, just not making waves, even though he is increasingly uncomfortable with his father's jokes about girls, and his best friend's explicit talk about sex; but now in middle school he discovers the Rainbow Spectrum club, where kids of many genders and identities can express themselves--and maybe among them he can find new friends and discover his own identity, which may just be to opt out of sex altogether.

Eleven-year-old Rick Ramsey has generally gone along with everybody, just not making waves, even though he is increasingly uncomfortable with his father's jokes about girls, and his best friend's explicit talk about sex; but now in middle school he discovers the Rainbow Spectrum club, where kids of many genders and identities can express themselves--and maybe among them he can find new friends and discover his own identity, which may just be to opt out of sex altogether.
